# Tom Yost

"PRESIDENT-2004"  
Thank You From For  
A GREAT YEAR!!

## Let's Give Tom Yost a Vote of Thanks!

As I tallied the statistics for the 2004 season I was surprised that Tom Yost had run only 3 autocrosses in 2004. Then I remembered he had a pretty serious condition that affected his ability to compete. Fully recovered later in the year, Tom competed in all the rally events and as many autocrosses as he could. Tom soldiered on throughout the year, chairing all the board meetings, and all general meetings but one.

In some ways, 2004 was a difficult year for VMSC. We couldn't fill our calendar at Virginia Motorsports Park, and early in the spring, we found out we had to cancel those Cloverleaf Mall events scheduled after April. Fortunately, Tom had already re-started a program of rallies, providing another outlet for competition, and taking VMSC back to its roots. For a while, it appeared VMSC would have an abbreviated season, but we picked up a VMP date in May, and added an autocross at CCA Temple in September. Through the tense times, Tom provided the stability and leadership the Club needed to stay on track and move forward.

Tom's leadership style is a model of modesty. He tends to work quietly on a personal level, listens, imparts his knowledge, and without fuss or fanfare, things get done. He kept the treasury in good order, oversaw the purchase of the new club trailer, new timing gear, arranged for the trailer graphics, and was available for hauling the trailer when needed. He saw to it that VMSC was well positioned to fill its calendar for 2005, and that indeed happened. **Next time you see Tom, tell him, "Thanks. Job well done."**

If nothing else.....we always manage to have fun.  
Really, when you think about it, isn't that the point??

Never give these two implements of communication.  
(i.e.) walkie talkie & microphone

There are only two of you who know  
what you are doing?????  
**NOT GOOD!!!!**

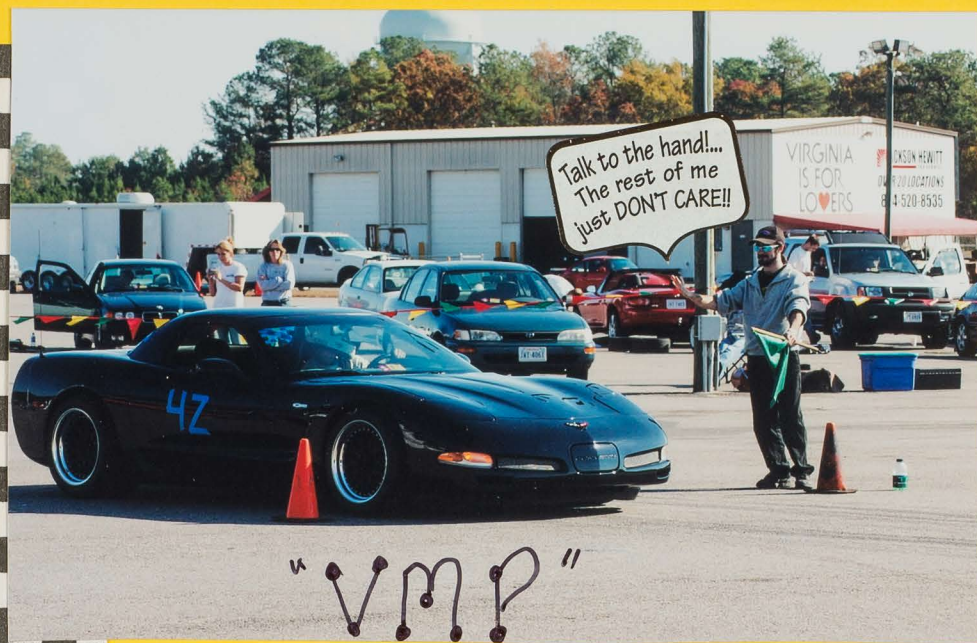

**DIRECTOR COLE**  
"Wonderful job,  
Thank You!"

**From Left:**

**Richard:** is still looking for his car.  
**Tom Yast:** These people better be listening because there's a test later.  
**Engelbert:** Did I remember to put gas in the car?

### "Run What You Brung"

??? Best part about autocrossing ???  
You can drive the same car you drive to work.

### Starter sends off 1st car.

Everyone gets to learn the different worker positions, which include starter, grid boss, computer timer, course workers, announcers and more.

Families enjoy a little down time and get to chat with each other about what's next for their cars.

## WHAT IS VMSC ?

Since 1950 the Virginia Motor Sport Club has been a non-profit organization devoted to hosting **Autocross and Road Rally events in Central Virginia**. The club hosts an **average of 12 autocrosses, 8 road rallies and several novice schools per year**. Our membership roster boasts some of the top autocross drivers in the nation and the region. Most of our events are open to competitors regardless of membership status with a few events being members only, but membership has it's perks!

## WHAT IS AUTOCROSS ?

**"Autocross" is a fun, yet competitive, non-speed focused auto event that tests driver skills and vehicle handling.** Autocross is also referred to as "SOLO" competition because one car negotiates a course against a timer, unlike door-to-door racing.

A course is laid out using **orange traffic cones to mark the path the cars will take**. These events are usually run on large parking lots or airfields with

good surfaces free of pot holes and as few permanent structures as possible. One driver at a time negotiates the course with times being determined electronically. Seconds are added to a competitors raw time for cones knocked down, with off courses resulting in a DNF (did not finish). Winning can be determined by 1/1000 of a second.

Some of the *driver skills you will use* to negotiate a **successful autocross course** are smooth transitions, hard braking, controlled cornering, lane changes and slaloms. **It requires** concentration, fast thinking, quick reaction times and the ability to push harder when every part of you mind tells you to lift of the gas. Put all that together with schools, learning to read a course, and **driving to win or simply having fun**, and you have a great sport.

We have **varying classes** so you can drive the car you take to work everyday, a slightly or heavily modified street car, or a dedicated competition car. Some vehicles that are not permitted are high profile SUV's, trucks, mini-vans, motorcycles, and go-carts

There are 10-12 events each season, run by **men and women** with several father/son and father/daughter teams as well as husband & wife teams. Family and friends are our spectator base and we occasionally have a local business-sponsored event once a year. We also have a members only event at the Shriner's ACCA Temple in Richmond, a few open events at VMP in Dinwiddie, and one race per year is designated as a charity event.

**The best way to learn is to come out, tell us you are new, and we will hook you up with an experienced driver to mentor you through the day.** As you come to more and more events you will make friends quickly and you'll experience the camaraderie of **over 100 driving enthusiasts at any given race.**

**Nothing works better then "SEAT TIME"**  
**Come on out and give it a try!!**

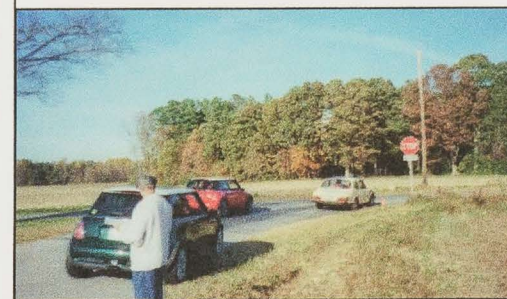

## WHAT IS ROAD RALLY?

A Road Rally is a competitive precision driving challenge in which a **driver and a navigator make up a rally team**. The challenge is to drive on time, arriving at multiple check points along the route neither early nor late. **There are three types of rallies;** Tour, Course and Great Race.

**Drivers must be 18 years or older** with a valid drivers license. **Navigators must 18 years or have parents written permission.** Navigators need the **"3 R's"** (Reading, 'Riting and 'Rithmetic).

**Types of cars:** any type of vehicle that has passed inspection, is registered, has 4 wheels and can carry 2 people. There is also a **Novice Class and a Rally School at the beginning of each year**, and there are always experienced drivers and navigators to help you along. With all that said, you'll have a great drive through scenic country sides, by historic land marks, through downtown, or wind along a peaceful river.

**All in all it makes for a fun day for car enthusiast.**

Life is not a journey to the grave  
with the intention of arriving safely  
in a pretty and well preserved body,

*but.....*

rather to skid in broadside,  
thoroughly used up,  
totally worn out, and proclaiming

***"WOW, WHAT A RIDE!!!"***
