

# 2025 VMSC ANNUAL TECH INSPECTION

- Throttle pedal and/or return spring attached and functioning properly
- Battery securely mounted
- Brake fluid level
- Firm brake pedal
- All loose items removed from the interior, including floor mats
- Driver seat securely fastened to the floor
- All lug nuts tight
- No play in wheel bearings
- Proper numbers and class displayed on both sides of the car
- No fluid leaks of any kind
- Tires must be in good condition with no cord or belts showing, or cracks in the tread or sidewall
- Helmet rated Snell M, K, or SA dated 2010 or newer is required. Both open-face and closed-face style helmets are permitted. **NO DOT ONLY** rated helmets will be allowed

**By signing this form you are agreeing to check (and be responsible for) the above items on the entered car prior to participating in any Virginia Motorsport Club autocross event, including practice days, and autocross schools.**

1. The safety of any vehicle entered in any event shall be the sole responsibility of the driver.
2. Annual tech stickers shall only be issued to members in good standing with at least four events of verifiable autocross experience.
3. Annual tech privileges will be revoked if it is discovered that the entrant is not performing the checks listed above. Random checks may be performed at the Chief of Tech's discretion.
4. Annual tech inspection stickers are only good for the car originally inspected. If you are planning to run more than one car in a season, you must get each car inspected.
5. Annual tech inspections are only valid for the season for which the car was inspected as indicated below.
6. Annual tech inspections will only be available during the normal tech period for the first two autocross events of a VMSC season.
7. The Chief of Tech can revoke annual tech privileges at his/her discretion.
8. **IF ANY CHANGES ARE MADE DURING THE YEAR, CAR MUST BE REINSPECTED!**
