#### EDITORIAL

It seems that editors are always beset with problems of one nature or another. Last month I was hard put to write three paragraphs without descending into inanities, and now I am confronted with so much material that I hesitate to attempt to cover it all. It's been a busy month, though, so here are a few of the highlights.

On August 27, P.M.S.C. attempted an area first, a serious all-night rally. Common in the D.C. and Tidewater areas, an event of this type has not within my memory been tried in Richmond. Rallymaster Greg Howe, however, not a man to let custom stale his infinite variety, took the bit in his teeth and produced a really outstanding event. A pity, indeed, that an effort of this magnitude, involving as it did in excess of a thousand O.D. miles in the laying out, should draw a total of four cars. Even more of a pity when you consider the number of V.M.S.C. members who announced their intention to support this event at the last meeting. Of these, three cars showed up. Caryl and Dick Hatch, I think, deserve special commendation in this group. Although unable to compete because of Dick's broken arm, they volunteered to man a checkpoint, no small job at four o'clock in the morning. The other two cars entered the rally, Hart Grundy and Brad Peasley turning in a beautiful run to win by a wide margin. Would you believe ten checkpoints?

A couple of other recent events also deserve mention. Bill Whitehead, the Scourge of Stuttgart, won his class and took second overall at the Mini-Malboro on August 20. I understand from him that it was an excellent event. Also, Ann and I went down to the P.S.C.C. 2-day Autocross over Labor Day, but not with Bill's success, though Ann won her class on day two. George Sykes was the O.D. this year, and put on one of the most enjoyable speed events I've run in many years. I'm sure Jeff Jeffries will have all the details in this week's "Stopwatcher", so try to get hold of a copy.

A word about some coming events. As the front page shows, John Ruble will be in charge for the September rally. For those of us who are becoming somewhat weary of gimmick rallies, this should be a welcome change, and a good warm-up for the Old Dominion Rally in October. You novices might give some serious consideration to running this annual two day event; the \$35.00 cost may be stretching some budgets, but the event is well worth it. If you ever run it, you'll never miss one.

Finally, don't forget Doris Belcher's Braille Rally, scheduled for September 10. It may have been already run by the time you receive this, and, if so, I hope Doris found enough volunteer drivers. It's a worthy idea, and deserves all the support we can give it.

The rally was graded on dots, with mileage as a tie breaker. There were 116 dots, and the official mileage was 12.58, with no odometer check.

In the past I have noticed that those letters which appear in Checkpoints which were written by rally winners have been brazen braggadocio about the particular talents which were brought into play in order to wind up as a much decorated and acclaimed winner. Let me say at the outset that this letter will be no different.

Have you ever tried to tell a guy that you're not sure where you're going, that you're only looking for a little white dot on the road? It can be quite disconcerting when you notice the look of amazement and the expressions of disbelief which ask "What are you, some kind of nut?"

However, through it all, the not so welcome welcome of the local populace, the maze of dots, an overheating TR, and an irritated wife, we blasted through, nay, roared, in a cloud of choking dust, as the prime example of the all-American dot follower.

# You're right!

It takes more than a sloping rear to make a true fastback sports car.

Proof: the new Triumph GT-6 fastback.

First, there are the obvious differences. Performance patiently honed for the most exacting. Luxury carefully crafted for the most discriminating.

The most important difference, however, is the heritage. GT-6 prototypes have been tested and proven in world-wide competition. (They finished 1-2 in their class after twenty-four

grueling hours at Le Mans.) This is your—and our—assurance of a sports car that can meet and conquer any driving challenge.

This is why we say the Triumph GT-6 is not just another fastback. It's the fastback.

# 5500 RPM will show you tell-tail tires.

Radial Ply Men. 5500 Dunlop dealers in 50 states are ready, willing and knowledgeable to talk radials with people who drive instead of just steer.

Get the inside story on how Dunlop uses a unique textile breaker band to brace its radial tires. Dunlop eliminates that sudden tail-breaking that made ordinary radials infamous.

Both these Dunlop radial styles tell your tail. Both are right for seat of the pants driving in anything from Mini to Mustang.

Both are safe at 125 mph. You won't do that on the street, but you will use the extra margin of strength and performance it represents.

Every Dunlop tire meets or exceeds every official specification for safe performance.

**The SP-Sports Radial** . . . textile radial performance combined with a deep, hairy tread . . . a street tire, but already showing up at rallies, gymkhanas and hill climbs. In fact, the 1967 Monte Carlo Rally was won on these Dunlop Radials.

**The SP-41 Radial** . . . on-rails handling . . . higher braking power . . . less wander . . . better acceleration . . . more top end . . . great in the wet.
